☐ Continuation Sheet Attached

Brief Description of Arguments to be Presented:

Nowhere does USPN 6515592 ever show or suggest a pipe having a two-path electrical conduction as required by the above-referenced claims. For example, most embodiments in Figs. 15-17 show a single path for the conductor conduit as in all cases the conductors are electrically connected.

An interview was conducted on the above-identified application on _____.

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
